Baranda

Virtual Tours Creator Jul 2021 —Feb 2023

- We achieved over 50% digital marketing growth for some companies through working on three approaches.
- I worked as a technical manager, where I was responsible for all technical tasks, starting from capturing 360-degree photos, through processing the images, creating the virtual tour with all its contents.
- Uploaded and managed 9+ virtual tours on Server and Google Maps.
- I was 100% responsible for programming the company's website and managing it 100%.
- I participated in developing plans and goals aimed at enhancing and improving the company's vision.

Freelancer

360 Photography,real estate photography Jan 2022— Present

- Capturing 360-degree photos, editing them, and then explaining how to utilize them to maximize their effectiveness in marketing activities.
- Adding 360-degree photos to the business listing on Google Maps, enhancing its visibility to more than 300k view and engagement with potential customers.

Freelancer

Front end Developer, web designer Feb 2021 — present

- Developed and maintained responsive web designs for multiple clients, resulting in increased website traffic and user engagement by 20%.
- Implemented SEO best practices and optimized website performance, resulting in improved search engine rankings to 1st page search result and faster load times.
- Created a new user interface for the company's website. Increasing reducing bounce rate by more than 50%.

Front end developer and **Teaching assistant**

Sudan university of science and information technology Oct 2019-Oct 2020
